

# Camp Ak-O-Mak

2011

## VISITING THIS SUMMER

### Parents of 7 – 4 – 3 Week Campers:

In consideration of all campers, and especially those who may be working through the natural process of missing home, we request that parents not schedule visits until after your daughters first two weeks at camp.

Campers will not be permitted to leave Ak-O-Mak during parental visits without the Director's authorization. This is for both safety reasons and to avoid disruption in scheduled activities.

### Parents of 2 Week Campers:

Although we have tried a variety of "visiting models" in the past, we have found them disruptive for campers and staff given the high intensity and short duration of these sessions. Therefore a formal "Parents' Day" will not be offered.

Please consider letters, Bunk-Notes, or a small care package as a creative alternative. All packages will be opened to check for nut related products, please keep packages small.

### Local Housing Options:
